

## Working for the NHS

Whether you've always wanted to work in health or have never thought about it before, the huge range of careers in the NHS will amaze you!

There are clinical and non-clinical careers available.

You could work on the front line on a ward or never see a patient and still make a difference to people's lives.

From the person who manages the finances to the clerk who books in an operation, everyone working in the NHS contributes to vital services.
