

## Working for the Ambulance service

If you have a caring nature, good communication and organisational skills and an ability to stay calm, an ambulance service career could be the one for you.

As a paramedic, you'll often be one of the first to arrive when a patient needs help. It's a fast-paced and vital role where you'll need to quickly take charge of the situation to save lives.

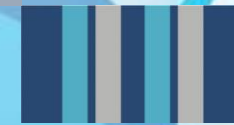

As well as a paramedic, there are many other roles available, from ambulance care assistant and patient transport service, to call handler to emergency medical technician.

There are 11 ambulance services in the UK, with South Central Ambulance Service serving the Berkshire area.

*"There is no ordinary day in SCAS – it's dynamic, exciting and full of new experiences. Likewise there are no ordinary people – there is an extraordinary team committed to delivering the best care to our patients."*
